

IACST Newsletter

WINTER ISSUE (28 DECEMBER 2018)

Endless effort for ICCT2018

It seemed the summer will never end and the weather gave us quite harsh time to work on things. Nevertheless, our board members didn't quite mind the weather, including 5 days of hottest time of the year, had visited several times to make a successful conference. Shaoxing, that was. They came back with, needless to say, great results. You can taste little bit of it from this newsletter and plenty from our official website, where you should visit!

ICCT2018

ICCT2018 was held with Shaoxing City's active support and with Zhijiang College of Zhejiang University of Technology, Shaoxing University Yuanpei College, Zhejiang Yuexiu University of Foreign Languages, and Shaoxing Industrial Design Research Institute in cooperation, and more than 220 academic societies and industry workers in over 10 countries participated.

ISCC 2018 was an event held together with ICCT 2018 (International Conference on Culture Technology) International Academic Conference and CADI 2018 (Convergence Art & Design International) International Convergence Art & Design Exhibition. ISCC 2018, which was an experimental stage, achieved a great success, and the future ISCC is more promising.

<new(er) generation shows her interest in ISCC>

We also had visited Jinggong Holding Group and a factory that manufactures one of the local specialties, Yellow Wine(Yellow Rice Wine, also called “Shaoxing Wine”). It was quite a special thing we could meet in Shaoxing city during ICCT2018.

Ready for ICCT2019

And you will not be surprised from our President and Chief Vice President already have visited Bangkok for discussing about ICCT2019. They met with Professor Intiraporn Mulasastra, Professor Somchoke Ruengittinun, Dr. Rattasit Sukhahuta, Dr. Duangnapa Sukhahuta, Dr. Thepchai Supnithi, Ms. Watchira Buranasing, and more. They shared their opinions and visions and looked around places to create a detailed plan.

<good people,
good discussion>

**[Makers' School After Work]
by Prof. Taesoo Yun, the chief vice president of IACST**

KOFAC(Korea Foundation for the Advancement of Science & Creativity) selects the organizer to build and operate the maker space by providing financial support, and supporting activities such as integrated branding, consulting, online system, and education support.

The Chief Vice President, Taesoo Yun and his team have selected for the one of organizers for this Maker Movement!

[Makers' School After Work] is the name of this project which aims

- Contribution to the Maker Movement in partnership with Purdue University's Wonder lab,
- Promotion of business linked with urban renewal project,
- Building a system to share knowledge and skills for citizens, officials, students, and so on.

<maker-event : market>

<maker-event : lecture>

We are very much looking forward to what he and his team will make and hope we can share more of this project in the future.

50th Anniversary of CHRIST University

CHRIST(Deemed to be university) has 50th anniversary this year.
Our director Dr. Guydeuk Yeon shared this wonderful news with us.

Please visit their official website for more details about it and even more.

<https://christuniversity.in/GoldenJubilee>

And also, as part of the 50th anniversary ceremonial event, they held Korean / Indian academic conferences and cultural events. You can appreciate the moments this way as well. Just imagine you were there!
